Professional Summary

Highly motivated and detail-oriented B.Tech student specializing in Artificial Intelligence and Data Science with hands-on experience in machine learning, data visualization, and full-stack web development. Demonstrated ability to develop innovative AI-driven solutions through academic projects and internships. Adept at working with Python, SQL, and modern web technologies. Passionate about leveraging AI to solve real-world challenges and contribute to cutting-edge research and development.

Skills

Python, Machine Learning, Deep Learning, Data Visualization, Power BI, SQL, HTML, CSS, GitHub, Prompt Engineering, OpenCV, Scikit-learn, TensorFlow, Keras.

Education

B. Tech Artificial Intelligence and Data Science

CGPA : 8.9

Experience

completed internships in Machine Learning, AI, and Full Stack Web Development, where I built recommendation systems, image and gesture recognition models, a conversational AI chatbot, traffic signal optimization using reinforcement learning, and developed responsive web applications including a blog and e-commerce platform.
